

Happy Hour
THURSDAYS
4:00 PM – 7:00 PM
Rooftop Garden

*Happy Hour provided by Mila, will occur every Thursday (weather permitting) from 4 PM until 7 PM. This year, menu to include **soda/water**, bottled **beer**, house **wine**, specialty **cocktails** and **food!** Cash and credit will be accepted.

“Light Twister”
Blown Glass Sculpture Installed at 540 West Madison

As part of 540 West Madison ownership's commitment to the environment and goal to achieve LEED Platinum Certification, a rainwater recycling system was recently established on the building. To commemorate the completion of this achievement, "Light Twister" - a blown glass sculpture created by Lasvit, was installed throughout the lobby and noted as the final step in the sustainability transformation.

Lasvit's designers drew inspiration for the shape of the blown glass pieces from rain drops, mirroring the building's sustainable systems. The “Light Twister” sculpture is 190 feet long and consists of more than 3000 hand-blown crystal components in various shades of blue in combination with silver and clear opal.

David Werner and the Mizrachi / Alcalay / Ben Yosef investment group are the owners of 540 West Madison, Chicago.

Lasvit Press Release

The recent completion of the blown-glass sculpture "Light-Twister" by the world renowned Czech glass company Lasvit marks the completion of the transformation. Lasvit’s bespoke designs always strive to perfect the transformation of glass to create spectacular, emotive, lighting experience in the space. The installations designed by Lasvit in-house designer Libor Sostak were created from hand-blown crystal, using a variety of artistic techniques.

Lasvit's designer drew inspiration for the shape of the blown glass pieces from rain drops, mirroring the building's sustainable systems. “Light Twister sculptures created for 540 West Madison were inspired by dynamic movement, symbolizing growth and rapid development. To empower this impression, lighting elements were placed inside certain components,” says designer Libor Sostak. The Lasvit sculpture is 180 feet long and contains 5675 number of individually blown glass pieces, and 674 numbers of LEDs.

FITNESS CENTER & THEATER AT 540 WEST MADISON

Shelter in the Place Seminar

New Class Schedule!

Join Julianne From Bare Feet
Power Yoga for weekly yoga classes
All levels are welcome to attend!

Restorative Yoga with Julianne
Mondays @ 12:00pm

Relax, Reinvigorate and Re-energize. Treat yourself to the art of restorative yoga with this 80 minute class designed to release tension and divert stress through relaxation. Spend time aligning your physical and mental body with a physical practice of stillness with comfort, quiet and calm. Give yourself the gift of pure relaxation.

Power Yoga
Tuesdays @ 5:55pm
Wednesdays @ 1:00am
Fridays @ 12:00pm

Connect your breath to your movements and focus your mind as you flow through the Power Yoga class. The class will start with traditional Sun Salutations and moves through a variety of standing, balancing, back bending and hip opening postures that will build your strength and increase your flexibility. We will offer modifications to keep beginners comfortable and confident and each class will be filled with positive vibes to make for a truly uplifting experience.

On June 21st, Securitas Security, 540 Madison's building's security provider, held a seminar for the tenant's facility teams discussing sheltering in place for severe weather. We were very excited to see such a large number in attendance with all tenants represented.

Following the seminar, 540's Security and Engineering departments held 540 Madison's first ever Shelter-In-Place Drill on June 28th. The drill was set up as a response to severe weather in the immediate area. Every tenant's floor participated followed by an abundance of positive feedback.

This was a great learning experience for every tenant, every department and every person involved. We hope you'll join us for future seminars and drills in the coming months.

If you have any questions or comments about this recent Shelter-In-Place Drill, or general building security procedures, please contact Marc Peterson, Director of Security at: Marc.Peterson@securitasinc.com
