Bright Star Community Outreach, One Summer Chicago Program

For the fourth consecutive year, 540 West Madison is participating in the Bright Star Community Outreach's One Summer Chicago Program. During the past several weeks, our student interns, Mia and Jataeja, have been working with management, engineering, janitorial, and security teams to gain first-hand experience in building operations.

540 West Madison is proud to continue to support this incredible program that provides training and mentorship to Chicago youth, which helps enhance their skillset and prepare them for the future.
